*Guts, feathers, and all*

Ever dream of killing two pigeons with one stone? Or better yet: an axe? If so, you won't want to miss *Canceled Flight: 101 Tried and True Pigeon Killin' Methods* at the Reed Space Gallery (151 Orchard Street, 212-253-0588, through May 24). Featured are 45 insanely creative executions by a talented roster of tortured young souls. Behind this zany project is Mr. AV Jones, founder and president of PUTP (People for the Unethical Treatment of Pigeons). We hear he's a lovely fellow, despite his pigeon-ocidal urges. For more of his murderous methodology, check out the *Canceled Flight* book, just released by Throckmorton Press.
